M.Y PE BIKE PROGRAM

Each fall and spring the SOSD offers the Bicycle Education and Safety Training (BEST) to Middle Schools in the Division. This Phys. Ed. integrated program provides students with the skills and confidence necessary to safely ride on city roads.

Over the years we've seen the number of students riding bikes to and from school increase because of the program. This is exactly the type of Active Culture the program is aiming to achieve.

During this last spring session, the program, lead by Instructors Peter Obendoerfer & Jon Rhoda, along side Phys. Ed. staff with Jack Eyer / Ben Weibe, the program ran out of Leila North, AE Wright, OV Jewitt, Elwick and Amber Trails school.

FISH AT SCHOOL

2025 marked the 5th year of the SOSD Fish at School program. This program is offered to grade 8 students throughout the division.

Leila North Phys. Ed. specialist Mike Nychuk, accompanied by Channel Cats Manitoba's Todd Longley, provide awesome, hands on fishing experiences to students along the shore of the Red River at Selkirk Park in Selkirk MB.

Congrats to this years "winning classroom", from AE Wright, (teacher Julie Rowluk) on their 44 fish (713.5" in 2hrs!!!)
