Subject: Establishment of Catchment Area for École Mino Pimatisiwin Opening September 2026

Dear Seven Oaks Families,

Seven Oaks School Division is pleased to share important information regarding the establishment of the catchment area for École Mino Pimatisiwin, our new dual-track English and French Immersion Kindergarten to Grade 8 school. The school will open in September 2026 with programming for Kindergarten to Grade 6, expanding to Grade 7 in September 2027 and Grade 8 in September 2028.

As our community continues to grow, it is important that students can attend school close to home and that enrolment remains balanced across the Division. To support this, we have established a new catchment area for École Mino Pimatisiwin. As a result, some students who currently attend neighbouring schools, primarily École Templeton and Riverbend School, now fall within the new school's designated boundary. Beginning in September 2026, students in Kindergarten to Grade 6 who reside within this catchment will attend École Mino Pimatisiwin as their designated school.

The new catchment area includes the neighbourhoods of Aurora at North Point and Highland Pointe. Please view the following links for a map of the catchment area:

[École Mino Pimatisiwin – English Catchment](#)

[École Mino Pimatisiwin – French Catchment](#)

We recognize that school transitions can bring questions for students and families. Our goal is to ensure every child feels welcomed as they join their new school community. In the coming weeks and months, Seven Oaks School Division will offer open houses, information sessions, and opportunities for families to learn more about the school, its programming, and the transition process.

Families directly affected by this new catchment area will receive a personalized notice with additional details from École Mino Pimatisiwin Principal, Crystal Hanson.

We look forward to welcoming students and families into École Mino Pimatisiwin.

Sincerely,

Tony Kreml
Superintendent
