

## FIELD TRIPS AND SPORTS TRIPS

The Board shall allocate in the Transportation Budget a money allotment for each school, to be used to subsidize the transportation requirements for out-of-school programs.

The amount of the allotment shall be determined primarily by the number of registered students in the school and weighted in relation to the economic need of the school's student population.

The allotment shall apply to the use of school buses whenever school buses are not being applied to Student Transportation Services as per Policy EDDB/JGGA.

The allotment amount per student shall be set each year by the Board within the limits of the available grants.

- See also Policy EDDB/JGGA Student Transportation Services and EDDB-R/JGGA-R - Regulations of Student Transportation Services.
