Break**
- Jan. 9: School Re-opens—
back to regular
classes.**

****Please visit the school website for full calendar details. Dates are subject to change. Most current information will be on the website.****

All the children are playing...

November snow has precipitated children resuming play industriously building snow forts and creating families of snowmen. We are now pleased to see the plans of stage two continuing with the completion of the tire play area. Approximately twenty tires of various sizes have been cemented into the sand area providing a spot, in which children can climb, balance and jump safely from one to the other.

November 25 saw the arrival of the final addition. It is the brainchild of Wally Wicha and Joe Schellenberg, of W & M Professional Gym Inc. They have designed and constructed a red steel framed fire truck of piping similar

to that typically used on city play structures. It comes complete with seating, a fire ladder and steering wheel. It complies with all standards set for play structures and its open concept means children at play can be seen and easily supervised. What makes it truly unique is it comes complete with signage adorning what would have been the panel of a driver's side door, a dedication to our local fire fighters who faithfully serve the WSP area. Be sure to check it out next time you come to the school!

Parents and visitors, please check in at the office when entering the building. If you are picking up your child early, please sign them out at the office.
